- **CRM Customization:** Salesforce, Sugar CRM
- **Framework**: Flask, dJango, Laravel, CakePHP
- **Webserver**: Nginx, Apache, IIS
- **Development Tools**: VS Code, PHP Storm, Navicat
- **API**: REST, SOAP
- **Version Control**: GIT
- **Web Hosting**: Linux, Windows
- **Open Source**: WordPress, Open Cart
- **BI Tool**: Tableau
- **Scrum Tool**: Jira, Confluence

PROFESSIONAL EXPERIENCE

Spear Education Inc.   **May 2018**
Sr Software Developer / Solution Architect
Technology Used: Python, Flask, MySQL

- Worked on various microsite integration
- Managed and configured EC2 instances for dev and staging environment
- Implemented VueJs in existing angular application
- Created Mongo DB architecture with three node cluster
- Created auto scale group (ASG) for different servers
- Integrated Algolia for better search result
- Created auto sync tray app for data migration (ELT)

- Created internal reporting for managers using Tableau

Levementum LLC.   **July 2017**
Sugar CRM/Salesforce Developer
- Customized Sugar CRM as per client specification
- Created Custom Scheduler, entry points, jobs, Plugins
- Migrated Sugar 6.4 to 7.9 in both Linux and windows server
- Created custom lightning component in Salesforce
- Integrated Replicon time tracking solution in salesforce
- Implemented custom lead tracking using third party application to Salesforce
- Improvised SOQL and SOSL in Salesforce
- Managed and configured System administration for different clients

Trend Shift LLC.   **Feb 2016 – April 2017**
Sr. Agile Software Developer
- Developed Agile Healthcare Platform (using **ZF2**, **MySQL**) to show the real-time opportunity analysis for any medical/pharmacy claims.
- Co-architected Zend Framework 2 REST/RPC API stack for healthcare data
- Co-designed access control, authentication, and authorization security mechanisms
- Developed access controls for division of application capabilities per business rules
- Extended authorization capabilities to standardize API control mechanisms and security verification
- Analyzed and balanced security run times against acceptable interactive availability
- Grew MySQL storage for analyzing medical data
- Created Internal reports for Management and Sales team using **Tableau**
- Managed tableau Server for 100 Users

Clear Call Solutions Inc.   **Sept 2010 – Jan 2016**
Lead Software Developer
- Created custom reporting tool (using **Laravel**, **MySQL**) to save over 3000 man-hours, equivalent to $60,000 in annual savings
- Successfully created e-Contract automation for Field Technicians using **Laravel, MySQL** and **REST APIs** using **DocUsign, Authorised.net and Chargeover** to eliminate the manual process of filling 16 pages of ADT contracts and shorten the cash cycle
- Increased the Lead to Sale ratio by 5% after creating and implementing a custom auto dialer program (using **C#** and **Shoretel TAPI**) in Shoretel Telephony System
- Created and tested multi node cluster Cassandra DB to replicate the current MySQL databases

Laurussoft Inc.   **Dec 2008 – Aug 2010**
Sr. Software Developer
- Developed Arizona AIMS Math Prep online application (using PHP, MySQL) and implemented in 60 plus schools.
- Created Student performance tracker system to track student growths by daily, weekly and monthly.

Volver Inc.   **Mar 2008 – Nov 2008**
Software Developer
- Created a multiuser level project tracking system (using PHP and MySQL).

Arizona Cactus Sales.   **Nov 2007 – Feb 2008**
Software Developer
- Designed and developed a custom e-Commerce application using WordPress and implemented PayPal as payment gateway.

All India Online.   **July 2006 – Oct 2007**
Software Developer
- Created and executed PHP based web application for elementary education, content management system, e-commerce, ad management and document management system.

EDUCATION

                                                                              Aug 2002 – Apr 2006

Bachelor's in Computer Science & Engineering (Biju Patnaik University of Technology, India)
MBA in Information system (continuing)
